01 Install the app

Free on every plan

iPhone / iPad

Open **app.ringoretail.com** in Safari → tap Share → **Add to Home Screen** → Add. Open Ringo Retail from your home screen.

Android, Chromebook, PC or Mac

Open **app.ringoretail.com** in Chrome or Edge → tap **Install** in the bar at the bottom.

> The app updates itself. App Store and Google Play listings are coming; the home-screen app works the same today.

02 Turn on alerts

Know the moment something happens

1. **Open the app from your home screen**
   On iPhone, alerts only work from the home-screen app (iOS 16.4 or newer).
2. **Tap Turn on → Allow**
   A test alert arrives right away.
3. **Check your phone settings**
   Make sure notifications are allowed for the app and Focus / Do Not Disturb isn't hiding them.

03 Your team's phones

No logins, no new numbers

1. **Invite people**
   Settings → Users: invite by email and pick their access.

2. **They install the app**
   Same steps as you, then Turn on alerts.

3. **Shift alerts**
   Team members get alerts when a shift is added or changed for them; managers get store notices.
